Digfield and Jay wharf license

Whereas, By Section 10 of an act of Congress, approved March 3, 1899, "An act making appropriations for the construction, repair, and preservation of certain public works on rivers and harbors, and for other purposes," it is provided that it shall not be lawful to build or commence the building of any wharf, pier, dolphin, boom, weir, breakwater, bulkhead, jetty, or other structure in any port, roadstead, haven, harbor, canal, navigable river, or other water of the United States, outside established harbor lines, or where no harbor lines have been established, except on plans recommended by the Chief of Engineers and authorized by the Secretary of War; and it shall not be lawful to excavate or fill, or in any manner to alter or modify the course, location, condition, or capacity of any port, roadstead, haven, harbor, canal, lake, harbor of refuge, or inclosure within the limits of any breakwater, or the canal of any navigable water of the United States, unless the work has been recommended by the Chief of Engineers and authorized by the Secretary of War prior to beginning the same;

And whereas, Digfield and Jay have applied to the Secretary of War for permission to construct and maintain a wharf at Bar Harbor, Maine, at the location and as shown on the attached plans,

which plans have been recommended by the Chief of Engineers; Now therefore, this is to certify that the Secretary of War hereby gives permission to the said Digfield and Jay to construct and maintain a wharf at Bar Harbor, Maine, at the location and as shown on said plans, upon the following conditions:

1. That the work herein permitted to be done shall be subject to the supervision and approval of the Engineer Officer of the United States Army in charge of the locality.

2. That if at any time in the future it shall be made to appear to the Secretary of War that the structure herein authorized is an unreasonable obstruction to the free navigation of said water, said license will be required, upon due notice from the Secretary of War, to remove or alter the same so as to render navigation through said water reasonably free, easy and unobstructed.

It is understood that this instrument simply gives permission under said Act of Congress to do the work herein authorized; that it does not give any property rights, and does not authorize any injury to private property or invasion of private right.
