Written Permit to
Bar Harbor and Union River Power Company

Whereas the Bar Harbor and Union River Power Company, a Corporation established and existing under the laws of the State of Maine and doing business in said State of Maine, by its petition filed with the Selectmen of the Town of Eden, Hancock County, State of Maine on the 6th day of April, A.D. 1908, made an Application to the Selectmen of said town for a written permit to construct and maintain lines of poles and wires for the transmission of Electric light and power, and also to construct and maintain necessary supporting and strengthening fixtures within and along certain highways and town ways in said Town of Eden, being said highways and townways hereinafter described, and

Whereas upon said application fourteen days public notice thereof was ordered to be given, by publishing a copy of said petition and notice in the Bar Harbor Record a newspaper printed at Bar Harbor in said Town of Eden, two weeks successively, the last publication to be fourteen days at least prior to the date of meeting for the granting of such permit a true copy of said petition and order of notice is pasted hereto and made a part of this permit and

Whereas we, the undersigned, Selectmen of the Town of Eden, met at the time and place specified in said notice, to wit, at the office of the Selectmen at Bar Harbor, in said town on Thursday, the 30th day of April, A.D. 1908, at nine o'clock in the forenoon.

At said meeting before proceeding with the hearing, the Bar Harbor and Union River Power Company first proved that such order of notice had been complied with, and that public notice had been given as required thereby, to wit, that a true copy of said petition and notice had been published in the Bar Harbor Record, a newspaper printed at Bar Harbor in said town, two weeks successively, to wit, on April 8th and April 15th the last publication having been fourteen days prior to the date of said meeting. We therefore find and adjudicate that the public notice ordered by us has been given and

Whereas after proving such notice, we heard the Company through its attorneys and agents and all persons in opposition, and immediately,

afterwards proceeded to view the proposed route, and after hearing and fully understanding said matter we determined to grant a written permit to said corporation as provided by Section 17, of Chapter 55, P.S.

Now therefore having given fourteen days notice as aforesaid, and having given residents and owners of property upon the highways and townways to be affected, full opportunity to show cause why such permit should not be granted, we have determined and adjudicated to give, and do hereby give to said Port Harbor and Union Iron Town Company, for the purpose of carrying out its objects, written permit to construct and maintain lines of poles and wires for the transmission of Electric light and power, and also to construct and maintain necessary supporting and strengthening fixtures within and along the following highways and townways in said Town of Eden to wit:—

Beginning at the junction of the Chestnut Road with the Eagle Lake Road at Port Harbor in said town; thence following the Eagle Lake Road to its junction with the Norway Drive so called; thence following the Norway Drive to the corner near the house owned or occupied by Alphonso Mitchell; thence following the road leading by Frank Thompson's to the road leading to the Fort Sarah so called; thence by said last named road to the Old Town Well Road; thence by said Old Town Well Road to the Soper's Farm Road so called; thence by the Soper's Farm Road to the road leading by Mufnell Gilbert's place; thence by said last named road to the road leading through the Quaker District; thence by said last named road to the Old County Road leading to Ellsworth; thence by said Old County Road to the line between the towns of Eden and Truett.

Its posts shall be of cedar, chestnut or other suitable wood, or of metal, reasonably straight, set securely in or upon the surface of the ground and projecting not less than twenty feet above the ground; the posts, together with necessary supporting and strengthening fixtures may be located within the limits of any and all highways and townways, and the wires may cross from one side to the other of said highways and townways.

whereon said Company may drive, and the wires may be run from pole to pole upon, along and across said highways and town ways at a height of at least twenty feet above the ground.

And as incidental to the rights and powers hereby granted and permitted, said Company may do any and all things necessary to enable it to fully carry out its purposes in the manner above specified.

After the erection of said line, having first given said Company or its agents opportunity to be heard, the Municipal Officers may direct any alteration in the location of the location of said poles and in the height of the wires.

In Witness Whereof the said Selectmen of the Town of Eden aforesaid have hereunto set their hands this thirtieth day of April, A.D. 1908.

(23281)

Whereas, By Section 10 of an act of Congress, approved March 3, 1899, entitled "An act making appropriations for the construction, repair, and preservation of certain public works on rivers and harbors, and for other purposes," it is provided that it shall not be lawful to build or commence the building of any wharf, pier, dolphin, boom, weir, breakwater, bulkhead, jetty, or other structure in any port, roadstead, harbor, harbor canal, navigable river, or other water of the United States, outside established harbor lines or where no harbor lines have been established, except on plans recommended by the Chief of Engineers and authorized by the Secretary of War; and it shall not be lawful to excavate or fill, or in any manner to alter or modify the course, location, condition, or capacity of any port, roadstead, harbor, harbor canal, lake, harbor of refuge, or vicinities within the limits of any breakwater or of the channel of any navigable water of the United States, unless the work has been recommended by the Chief of Engineers and authorized by the Secretary of War prior to beginning the same;

And whereas, Mr. H.D. Wakefield of Eden, Maine, has applied to the Secretary of War for permission to construct and maintain a wharf in the tide waters of Port Harbor, at Port Harbor, Maine, at the location and as shown on the attached plans; which ^{plans} have been recommended by the Chief of Engineers;

Therefore, This is to Certify that the Secretary of War hereby gives permission to the said H.D. Wakefield to construct and maintain a wharf in the tide waters of Port Harbor, Maine, at said place, as shown on said plans, upon the following conditions:

1. That the work herein permitted to be done shall be subject to the supervision and approval of the Engineer Officer of the United States Army in Charge of the Locality.

required upon due notice from the Secretary of War, to remove or alter the same so as to render navigation through said waters reasonably free, easy, and unobstructed.

It is understood that this instrument simply gives permission under said Act of Congress to do the work herein authorized. That it does not give any property rights, and does not authorize any injury to private property or invasion of private rights.
